This is Phil Arnot for Community Comment on KINS Radio.

Since this is my last Community Comment before our General Election on November 6<sup>th</sup>, I thought I would leave you with several points to ponder!

Do you want a President who will be more flexible with Russia if he gets four more years? This is what he told the Russian President,

Do you agree with our President that if you don't have a record to run on, you should vote for someone else? That's what we did when President Carter failed us.

Do you agree that this Country was founded and grew on Free Enterprise and that Socialism will not work. We don't want to take the path that Europe has.

Eric Holder, the Attorney General will not give Congress the information they requested on Fast & Furious and now our President has issued an Executive Privilege to avoid releasing that information. Is that right?

Do you agree that by adding over a trillion dollars a year to our National Debt is causing a severe financial crisis, especially when most families are losing \$4,000 a year in income.

Do you agree with our President when he says "You didn't build that" when referring to a business or any enterprise. He seems to be against small business.

On Foreign Affairs, do you think it is strange that the Chief Deputy to Secretary of State Hillary Clinton has family that are members of the Muslim Brotherhood?

Do you want to keep an Administration in office that has either lied to us about Libya or at least kept the truth from us.

Do you think that with the increase debt and the deficit now over Sixteen \$16 Trillion Dollars that China will one day own us. If we continue on this path of spending our children and grandchildren could see this happen.

And my last point to ponder: Do you want another four years of an administration that cannot manage fiscal matters or adequately handle our foreign affairs.
