Well, score another hit show for Governor Mike Huckabee, when he spent the whole hour with Dr. Benjamin Carson. Dr. Carson is the Director of Pediatric Neurosurgery at John Hopkins Hospital. He spoke at the President's Prayer Breakfast in January.

Dr. Carson said at the breakfast that this country is for and of the people, not for and of the government. He said that Government is in the process of destroying our country.

The Bullies, he said, that's the Washington D. C. Police want you to think Governments way.

Dr. Carson said he was a poor student, but his mother said you are going to read. Those books made the difference he said and that reading gave him the ability to expand his horizons.

On our taxes he said that the system is out of whack. We need a Flat Tax. He then spoke about our \$16 Trillion deficit. A flat tax would help in reducing this deficit. The reason so many corporate jobs are going off shore is that we have the highest Corporate Tax in the world.

Here's my solution: When a person is born, give him a birth certificate, an electronic medical record, a health savings account to which money can be contributed – pretax – from the time you're born 'til the time you die. If you die, you can pass it on to your family members, and there's nobody talking about death panels. We can make contributions for people who are indigent. Instead of sending all this money to some bureaucracy, let's put it in their HSAs. Now they have some control over their own health care. And very quickly they're going to learn how to be responsible.”

He also spoke about Political Correctness or PC. We need freedom of thought and expression not Political Correctness.. Moral Decay can destroy America. We may need another revolution as the Country is not a Monarchy, its a Republic.

We need more straight thinkers like Dr. Carson in our Congress. In response to Governor Huckabee, he might consider a run for Congress.

I leave you with a point to ponder: If we had more independent straight thinkers in Washington, wouldn't this Country be in much better shape.
