this is Phil Arnot for community comment on K INS radio.

My topic today is whether or not our federal government has gotten too big and is out of control. For those of you who do not believe, I believe that I have some facts that will convince you that our federal government is gotten too big and his way out of control.

According to a recent report that was on television, 44 years after an overpayment was made by the Social Security Administration a demand was made upon a child to repay this overpayment, even though the statute of limitations is six years on such an action. Government is too big and our current administration is only enhancing the size of our government

for years I have supported a nonprofit organization called judicial watch. Judicial watch has filed numerous lawsuits after requesting freedom of information unclassified documents. Those requests have gone unanswered and so judicial watch as decided to challenge this huge government of ours through the court system. We all know about the Internal Revenue Service and its campaign against conservative organizations and the failure of the lead person with IRS, Lois Lerner, to testify before Congress. Judicial watch operates out of Washington DC.

In the Obama administration's failure to respond to a freedom of information act request by judicial watch, this administration is still in full Stonewall mode on Ben Ghazi. Documents uncovered by this organization show that the Obama administration is withholding key emails about the attack on the US Consulate and Ben Ghazi. While getting some documents which included emails, they were heavily redacted. For example judicial watch has been after the name of the CIA official who distributed those inaccurate talking points that were delivered by Susan Rice.

Some have said that Pres. Obama has decided to run Washington the way government is run in Chicago. In the presidents State of the Union address in January, he said quote but America does not stand still and neither will I. So wherever and whenever I can take steps without legislation to expand opportunity for more American families, that's what I'm going to do. Remember his threat at a cabinet meeting, he said I have a pen and I have a phone saying that he would not wait for Congress to act our president implemented amnesty for illegal aliens by executive Fiat. On January 16, 2013 the president signed 23 executive orders which were selected to poke holes in the second amendment. And then of course as judicial watch says our president continues to rewrite Obama care clearly in violation of the separation of powers clearly embodied in the U.S. Constitution.

I leave you with a point to ponder: I believe that not only has our government become too big but there has been more corruption and lawlessness in the last five years in this great capital of ours. This is Phil Arnot for community comment
