Well we have all read that our president has released five Terrorists to who? The laws of this country say that the president cannot negotiate with terrorists or a non-government. This is the issue that has bothered me and it doesn't seem to have been brought up in all the investigations that have been ongoing.

So what is present or Obama doing? He is going to destroy our country. I say our country because it's ours we are the owners of this great country of ours.

After the release of Sgt. Bergdahl, his parents met our Pres. at the White House and the father spoke Arabic. Many soldiers died in the search for Sgt. Bergdahl and in a panel discussion on Fox news those soldiers who served with him say that he served dishonorably and walked off his post looking for the Taliban.

Our president has not listened to Maj. Bradley or other military advisors and there was no congressional approval and as we now know Congress was to have been given 30 days notice of any such trade.

This secret deal between the president and the taliban is a complete turnaround for our president as he usually telegraphs everything in advance as to what he is going to do. The red line in Syria was his telegraph to that country but of course he never followed up on it.

I am so proud to be an American and to live in this great country of ours, but I am very concerned about the things that Pres. Obama has demonstrated that could undermine the social structure of the United States of America. When our president talks about social justice he is talking about socialism which is an economic policy. Many politicians and broadcasters and other officials confuse economic policies with political policies. For example democracy is a political policy whereas capitalism is a ^{social} ~~social~~ ^{economic} policy.

Well here it is July 2, 2014 at 10 wish each and every one of you a wonderful Independence Day and be proud of this great country of ours. Remember it's the home of the free because of the brave.

I leave you with a point to ponder: don't you think it's time that somebody removed the phone and the pen from Pres. Obama's office.

When our Pres took office, the Taliban was broken, but not today because of his policies
