It was interesting to me to read about the apparently well built cabin being discovered in the Arcata Community Forest. When I was taking Forestry courses at HSC back in the '50's, we did a lot of surveying and other activities in the Forest and it's a beautiful place. What amazes me is that all the materials and supplies had to be carried in on foot, and removed the same way. It's kind of hard to believe tht someone didn't see something!//I try not to get too far into politics, especially national politics, but John Boehnor's sudden resignation from Congress certainly didn't break my heart! Sitting up there with his sour countenance and his apparent lack of compassion for those in need sure didn't do anything for me. Reminded me of Newt Gingrich.//While I'm on the subject of those in need, I sure disagree with the procedure of someone moving to Humboldt County and getting right on the Welfare Rolls. I know of at least one person, and I know there are many more, who move into the area and just get free food, money for lodging, medication and many other amenities at our expense. I know there are those who need this kind of assistance , and I am not a Socialist, but I think we need to tighten up the procedure and figure a way to get these folks out of here!// As I was preparing to write this comment, my wife received a text message from a friend. She immediately texted her back, and the conversation, so to speak, carried on. Whatever happened to just talking to someone on the phone? I text my grandsons because that's the only way to get hold of them, but to me, texting is a royal pain in the arse!\* Figuring out how to get punctuations and other figures in the text is just too much trouble for an old man like

me.//This next Friday, October 2nd, the Eureka Community Music Series, or ECMS, starts it's twenty- second or twenty- third season of providing Eureka with quality music. The concerts are held at Calvary Lutheran Church, South and Prospect Streets, across from Alice Birney School. This opening concert will start off with a memorial service for Bob Micheli, who with his wife Pearl, have been the driving forces for the continuance of all kinds of high quality musical groups, such as pianist Anton Nel, The San Francisco Opera Singers, and several string quartets, such as The Cypress String Quartet, which is headlining the concert and performing for the Memorial service for Bob, who passed away earlier this year. The memorial will start at 6:30 P.M. and the concert at 7:30 P.M. Be there!//What's with all these people wandering around on the freeways at night in dark clothes-or any color clothes for that matter? It's bad enough when they are in town on lit up streets, but out on the dark freeway with the oncoming headlights making it hard to see them? Be careful out there! I can only imagine how the drivers who have hit these guys must feel!
