

This is Phil Amott for community comment on K INS radio.

Σ am

Sometime back I commented on our roadways and highways and the terrible shape that they are in. I spoke about the potholes and the roadwork in some detail.

My concern today is not about the potholes as it is about the potheads . as you read about our local community and the marijuana cultivation that is being condoned by our state, County and local governments. I am amazed that our local governments would condone the marijuana grows that are occurring and are County and they're doing it for a few tax dollars that they may or may not ever collect .

You see the potheads everywhere . they walk out in front of your car without looking in any direction . it's a wonder . that more of these pothead. are not in the hospital. after being struck. by one or more. vehicles .

. The other concern that I hav.is that. the use of marijuana. many . times will. take That user. into harder. and more caustic. drugs. such Such as cocaine. or herion.

having been hospitalized for various surgeries over the last several years, I know that drugs can affect ones Outlook on life especially when a strong drug will place you into a realm of where you don't care what they do to you next .

I cannot think of a day when driving my car that I have not encountered a pothead running or walking out into the street in front of my car or another vehicle nearby. Of course those potheads are never in the walkways or using the signals that are available to them because they are not aware of where they are and possibly who they are.

And I am still concerned and I am still concerned about the size of our federal government as well as our state government in this great state of ours. Therefore I recommend the following suggestion and that is that politicians and diapers need to be changed often . and for the same reason

Term limits is something that we need badly in Washington DC. Our founders never expected our politicians to remain on the public payroll for as long as some have. I think each and every one of us needs to contact our representatives in Congress and express that opinion .I can assure you that it will not be received very well .

What I really wanted to say today was ^{to} the wish everyone a wonderful new year in 2017 .we can have a wonderful new year if we get involved in our local community .help your neighbor your friends and your politicians because they need your help as much as anyone. we have a wonderful country because of our founding fathers and the great Republic that they created for us . We need to secure this great country for our children and grandchildren .

I want to and with a statement that my parents passed on to me , they said you must have a sense of humor to survive in this world because if you don't have a sense of humor , you may not have any sense at all.

I leave you with a point to ponder: don't you think is incumbent on all of us to work as hard as we can to maintain this wonderful country of ours and to carry on the work of our founders .
