

*This is AM for your CC*

*We need you to get involved. I need you to step out of your comfort zone. The timing-- it's perfect, its about the local elections- they are only 10 months away. There are jobs that desperately need good, honest hardworking people. We need people to run for the Eureka City Council, Board of Supervisors, the local school boards.*

*Who do we need? We need you.*

*Now I have your attention, please hear me out. It is really easy to run for office. Why not go down to city hall, fill out the paperwork--sign up. Even if you lose, it's no big deal.*

*What's that you said? You say that you're not qualified? Let's take a closer look at that.*

*If you manage to routinely balance a personal budget, then you are already qualified. Everything else is extra. Have you ever managed employees? Have you ever had to work hard to please a tough boss? Did you manage to live your life on the right side of the law? Good enough.*

*Serving in local office, it doesn't require a degree, it doesn't require government experience.*

*Still not convinced? You are not comfortable with public speaking? Well, the good news is you don't need to give speeches. In the case of the city council, you only have to attend two meetings a month! And there are no long winded speeches required. Simply grunt, and hopefully vote no on whatever is proposed! It's Easy!*

*And campaigning is not difficult. Simply take a couple days a week before the election and walk door to door. Talk to your neighbors and share 2 or 3 things that you would like to see different. Most people will thank you for visiting. We are a small town, you don't need a campaign crew.*

*You say that You're on a fixed income. Hey that's not a problem, none of these local offices pay very much. And that's another thing, somewhere along the line our society decided that it was ok to limit the income of our senior citizens. It really is stupid, we are taking the people with the most experience and telling them to shut up and live on a pitiful stiped called social security. Sad. Why not pad your cashflow with a low level salary that comes from serving in office?*

*Now you are convinced. Now you want to make a real difference Give me a Call, and let's talk about what office you should run for.*
